Design

There are many 'off the shelf' themes available – a couple of examples (click image to visit websites):

The screenshot shows the homepage of the Musselburgh Transition Toun website. At the top is a green navigation bar with links for Home, About Us, Archive, and Contact Us. The main header features a logo with a stylized bird or wave above the text "MUSSELBURGH TRANSITION TOUN". Below the header is a large white box containing a quote: "We are a local group of people who are exploring how we can reduce our dependency on cheap oil and prepare ourselves for the ongoing impacts of climate change while creating sustainable and friendly neighbourhoods across Musselburgh." To the left of this box is a logo for "Musselburgh.info" with a colorful, abstract design. Below the logo are links for "Bridges Project", "Brunton Theatre", "Fisherrow Community centre", and "Fisherrow Waterfront Group". To the right of the quote box is a "SEARCH" section with a search bar and a "Search" button. Below the search bar is a "LATEST POSTS" section with two entries: "Sowing the seeds for a community garden plan in Musselburgh" and "Short films request from".

The screenshot shows the homepage of the North Berwick Community Centre website. At the top is a navigation bar with links for HOME, WHAT'S ON, COMMITTEE, FACILITIES, CENTRE GROUPS, COMMUNITY GROUPS, and CONTACT US. The main header features a logo of a building above the text "North Berwick Community Centre". Below the header is a large image of a colorful, dome-shaped tent on a grassy hill overlooking the sea. Below the image is a "Welcome to North Berwick Community Centre" section with a photo of three women looking at a long wooden object. To the right of the welcome section is a "Search" section with a search bar and a "Search" button. Below the search bar is a "Latest news" section with four entries: "North Berwick Raft Race", "Boost your Bones Event", "Athelstaneford Skatepark Survey", and "Celebrating adult learning in East Lothian".

About me:

Half of my working time is spent at East Lothian Council as the Community Learning and Development Service IT Development officer responsible for the design, production and maintenance of several websites and web based applications. In the other half I am a freelance web developer and tutor working with many local voluntary & statutory organisations including local community councils, management groups, East & Midlothian councils, the East Lothian Community Planning Partnership and the Scottish Government.
